UNION MEN RESTRAINED. ew Turn Taken in the Chasleston Bulld-

Charleston, S. U., Special,-The strike situation in Charleston has taken a new phase. The J. T. Snelson Contracting Company, through its attorney, T. Moultrie Mordecai, Friday filed two complaints in the office of the clerk of the court of common pleas, one against the carpenters' union, the other against the brick layers' union, asking that the court grant n injunction restraining the union men from interfering with the nonunion men employed by the Snel-

son Company. The plaintiff alleges that he is under contract to erect an addition to the Memminger High School and various other buildings in the city; that the union workmen of Charleston have combined, confederated and conspired to prevent the men employed by the plaintiff from going to their places of work, compelling them to turn back and return to their homes, threatening to carry on this intimidation, beating and unlawful assault and

battery. Judge Dantzler, of the first judicial circuit, has granted an order requiring the officers of the carpenters' union and the bricklayers' union to show cause before him on the 15th mst., why a permanent

injunction should not be granted. Attached to the complaint are affidavits from several workmen employed by Contractor Snelson. alleging that at various times they were set upon by union men and assaulted and compelled to go to their homes.

If a permanent injunction is granted by the court, and there is Wm. Kirmse, a member of the bridge every reason to believe that it will in the course of time will result in white tabor being employed in mechanics are being imported to Charleston every week.
